Document to Knowledge™

A CANON COMPANY

Key benefits

• Easy-to-use text recognition & document archiving solution

Never retype any text and save a maximum of time to scan, recognize, convert and archive all your documents in just a single click.

- **Input formats:** JPG, GIF, PSD, PNG, TIFF, BMP, PDF, Scanned images (Image Capture) (TWAIN)

- **Output formats:** PDF, DOCX, XLSX, ODT, ePub, Audio, RTF, HTML, TXT, TIFF, JPEG, PNG

• It recreates document layouts

Readiris™ 15 for Mac not only extracts text from paper documents, images or PDF files, but also recreates their layout. Based on powerful page analysis technology, Readiris™ 15 for Mac detects the different elements of the original files (image, text, tables, fonts, paragraphs, etc.) and recreates them in the output format of your choice.

• Save directly into your favorite applications

Send the recognized documents into your favorite applications such as MS Office, OpenOffice/Libre Office suites.

• Revolutionary High-Quality Compression technology (iHQC™)

Create colored PDF files up to 5 times smaller than the original image size. Ideal for document archiving!

• Output connectors to the Cloud

Easy integration with your favorite Cloud services. Upload to Dropbox, Box, OneDrive, Google Drive™ and Evernote™ in a single click!

• Easily back-up your documents in the Cloud

Readiris™ 15 for Mac, OCR software features a large set of Cloud connectors that will export your documents to the Cloud during the conversion process. No matter where you are, your documents will always be safely backed-up and easy to access!

• A complete PDF toolbox Within PDF files

Readiris™ 15 for Mac allows you to create, add, merge, delete, edit, rotate, compress, sign or straighten pages. It will also let you convert PDF documents to editable Word, Excel or even searchable PDF files in order to help you edit and manage information.

• Extended support of portable file formats

Turn all your paper documents into searchable PDF files.

• Multilingual solution

The OCR engine recognizes over 130 languages and the user interface is localized in 18 languages.

Minimum computer requirements

- A Mac® computer Intel® processor.
- Mac OS® 10.8 and above.
- Minimum 400MB of available hard disk space.
- 512MB RAM (1GB recommended).
- CD-ROM drive.
